

Neighborhood Water Pollution Prevention Awareness & Cleanup Events

Robertson Park and Community Center Neighborhood Cleanup Event – Local youth participants lining up for lunch, water pollution prevention information & school supplies afterwards. This effort is also supported by a Community Action Grant from the City of Sacramento Stormwater Management Program, and the Sacramento Parks & Recreation Department.

Lunch – Pizza is a favorite neighborhood cleanup reward locally. Often as here, the pizza is generously provided by the Sacramento Food Bank

The ever popular water pollution prevention information & school supplies distribution after lunch.
